

## Donation Rules

This platform was developed by Johnson & Johnson to support social causes. The company will donate 50% of each donation made up to \$400 (approximately R\$2.224,00) per person on this platform.

ALERT: This only happens if the minimum goal of \$37,000, established by the Fraternity without Borders, is hit in three months of campaign - with a chance to be extended. In case the goal is not hit, donation values are not debated from the donor and the FSF does not receive the contributions.

For this reason we are counting on everyone to achieve this goal and transform the street realities in Brazil! #wearefamily
